

# Remote Potable Water Hauling Subsidy Program

Policy GB16

This subsidy has been created to provide a fair and equitable subsidy to Saddle Hills County residences that will not be able to connect to the rural potable waterline system.

Eligible residences will receive subsidies at a rate of \$15 per cubic meter, not exceeding 120 cubic meters, to a maximum of \$1,800 per year. Please submit a separate application for each residence on the property.

Each year, residents who wish to be included must let the County know by completing the following form. At the end of the year, residents will use the same form to submit their receipts. The deadline for applications is January 31 of the following calendar year.

Please note that the subsidy will only be funded once per residence, per calendar year and that the water must be for domestic use only.

You must submit valid documentation showing the date the water was hauled or purchased within the year and the number of cubic meters purchased.
