

Approach Permit Application

If you are looking to build a new approach to your property from a developed County road, you will need to complete and submit an Approach Permit Request, as outlined in [Policy PW20](#). With the exception of industrial approaches, Saddle Hills County will provide one approach per quarter section on developed County roads and an additional approach per quarter section where a natural obstruction such as a waterway or ravine prohibits access to a portion of the quarter. This is provided at no cost to the landowner. Landowners may request changes to the approach or construct their own approach, under certain conditions.

Full Name of Applicant *
