Massive Hemorrhage Protocol (MHP)

STARS has bolstered its medical toolkit with an innovative new blood protocol. Now, in addition to carrying blood, our medical crews have access to two other products that help stop bleeding.

- Utilized in severe trauma cases
- Patients requiring more than two units of blood
- Blood product #1 Octaplex -- reverses anticoagulation
- Blood product #2 Fibryga -- helps blood clots to form

OUR LONGEST MISSION

While hunting in the rugged mountains of northern B.C., Doug MacTavish suffered a major heart attack. Providing critical care to this patient in need resulted in our longest mission to date.
